

THE DAILY CHRONICLE.

RULE & RICKS, Proprietors.

OFFICIAL JOURNAL OF THE UNITED STATES.

FRIDAY MORNING, MARCH 10, 1871.

HOW TO REMIT.

Money sent to us in registered letters, by Express, prepaid, or by Postoffice orders, will be at our risk, otherwise, at the risk of the sender.

SEND US THE NEWS.

We extend a special invitation to our friends to send us brief and pointed letters, giving items of interest in their several localities. We desire to have something of local interest in every issue for our East Tennessee readers.

THE LARGEST CIRCULATION

Of Any Daily Published in East Tennessee.

OUR RAILROADS.

Our special dispatch from Nashville gives the terms of compromise agreed upon between the State and the Knoxville and Kentucky and Knoxville and Charleston Railroads. The terms are exceedingly liberal, and as it seems to us, ought to insure the early completion of both roads. There is nothing now to prevent us from speedily having a road to Louisville and Charleston.

SIX TO ONE—SUGGESTIVE.

Democratic journals are again horrified at a "bigger riot" at Meridian, Mississippi, some account of which has appeared in our dispatches. As usual, the attempt has been made to have it appear that the fault is all with the negroes. They are the aggressors, and their virtuous opponents have done all they could to keep trouble down. But the latest we have seen—a special dispatch to the Nashville Union and American—tells a significant story. It is as follows:

"Information from Jackson, Miss., states that at the riot which occurred at Meridian, Miss., yesterday, between negroes and whites, six negroes and one white man were killed."

"Six negroes and one white man were killed." Here we have the case in a nutshell. Why is it that six negroes were killed and only one white man? If the negroes were the aggressors, does it not appear reasonable that they would have been prepared for it? When only one white man was killed, it must appear that the negroes had not premeditated any disturbance. The fact that six negroes were killed shows very conclusively that the whites were prepared to do the killing. This is about the way these riots usually result. The negroes are killed in about the proportion of six to one, and yet it is always attempted to be shown that the negroes are the aggressors.

SPECULATIONS.

As usual the news mongers around the national capital are treating the country to all sorts of speculations in regard to what will be. They say that the President will press Congress to remain until the San Domingo Commissioners return with their report, in order that it may immediately be acted upon. Again they have it that Congress will adjourn in a few days until the regular December session. Speculations are also rife as to the principal committees in both Houses. It is understood that the high tariff men are anxious for the appointment of Judge Kelly, of Pennsylvania, as Chairman of the Ways and Means Committee, while Gen. Garfield is insisted upon as a compromise between High Tariff and Low Tariff Republicans. Mr. Dawes will in all probability retain his position as Chairman of the Committee on Appropriations.

Our noon dispatches yesterday say that it has been decided upon in caucus that Senator Cameron is to take the place of Senator Sumner as Chairman of the Committee on Foreign Affairs. We think there is some mistake about this. General Banks will no doubt be retained as Chairman of the Committee on Foreign Affairs in the House. It is hard to tell how long the session will continue, but many believe that an adjournment will not be effected before the first of April.

The city is in a fearful stew over the failure of Uncle Sam to permit the Kuklux to say how he shall run his postoffice; and a prominent member of the House has boldly said if it comes to a question between a negro mail agent and the Kuklux, he is in favor of the latter. This same gentleman, not long since, said he wished the Ohio river was a river of fire, so that any communication between the North and South would be impossible.

The above from the Frankfort correspondent of the Cincinnati Gazette explains the animus of the meanest class of the Bourbon Democrats of Kentucky. It is the emanation of a mind so belittled and embittered by pure partisanship as to make him a libel upon his species. No wonder that a Legislature that had such an enlightened (?) member should refuse a charter to the Cincinnati and Chattanooga Railroad, or refuse to rebuke a band of masked villains who defied the majesty of the law, its creators and administrators, by riding into their very presence, and wrenching from the law officers of the State a desperado, notoriously guilty of a brutal, cowardly murder. This little scolded creature is a fit representative of the Bourbon spirit of Kentucky Democracy, and Kentucky Democracy is the legitimate offspring of pure, unadulterated hatred of the Federal Government.

A CORRESPONDENT of the Jonesboro' Herald and Tribune gives the following excellent advice to laboring men:

Never ask for money before you have earned it; when you have earned it, it is yours and you have not only the right to ask, but to demand it, and if he fails to pay you he has no right to expect your services longer. I would advise you never to quit the employment of a man, who has been just and kind to you, and paid you your wages promptly, to work for some one else because he promises to pay you a small bonus or a little larger wages, for such men do not employ hands long, nor do they always pay promptly.

Two regiments and one battery of regular troops have been ordered to Kentucky.

THREATENING AFFAIRS IN FRANCE.

The news from Paris is anything but encouraging. The partial withdrawal of the German forces, leaving the discordant elements in France in a measure free to carry out their factional designs, the result is, as we suggested it might be, that France is threatened with civil war. The extremists in the Assembly have demanded the impeachment of the officials of the Provisional Government, and that they shall not go beyond the reach of the Assembly until they have accounted for the power entrusted to them during the war. The revolutionists in Paris, carrying out the spirit of the demand made by their leaders in the Assembly, have gathered in threatening numbers in the forts about Paris, and threaten serious disturbances. We cannot see, in the advice so far received, any indication that this disorganizing spirit prevails alarmingly, or is formidable outside of the mob element in Paris, but it must be recognized as serious enough to provoke uneasiness and distrust. We do not see, in the more peaceable districts, any unit to reconcile differences and unite to reorganize a stable, satisfactory government, that would indicate activity and union among the friends of order and good government; and this, in connection with the positive disturbances reported, is not as favorable for speedy recuperation as could be desired.

Gen. Paladines has been appointed commander of the National Guard in Paris, and given notice that he would firmly and promptly execute his instructions and preserve peace at every hazard. If he displays fearlessness and energy, he may speedily restore confidence, and demonstrate the vigilance and power of the new Government. A great responsibility rests upon him, and we trust he will prove to be the right man in the right place.

The Assembly has decided to meet at Versailles—a very wise selection of place. The postponement of the final evacuation of the German forces to the 10th, it is thought, was brought about by Thiers to arrest present revolutionary disturbances until the Assembly could become located, and their authority in Paris fully asserted. Nothing final or definite can be expected from the present danger until the Germans have fully withdrawn, and the elements have had an opportunity to develop their purposes.

The people, especially in the ceded territory, are reported as disaffected with the situation, and heavy immigration to America is predicted.

The Washington correspondent of the Baltimore Sun says that the President has decided to nominate Mr. Bancroft as Minister to the new German empire under the law just passed. This will meet with the hearty approval of nine-tenths of the American people who think enough to have a mind of their own on the subject.

NEW ADVERTISEMENTS.

Drugs and Medicines.

NOTHING SO GOOD AS
Dr. Weaver's Medicines
FOR HUMORS.

THESE INVALUABLE MEDICINES HAVE cured a host of cases of the most distressing Humors, of all kinds from the Human system. They were introduced to the public some years since, and have been used with entire success. The CANGOR and SALT RHEUM SYRUP is taken internally, which cleanses the Blood, by throwing impurities to the surface, when the CERATE is applied, externally, and all eruptions are destroyed, and Health and Beauty restored. Their ASTONISHING SUCCESS has called out many ignorant pretenders, who have introduced their worthless preparations to the public. They are out in almost every form, from Panacea down to Pills, and all for Humors, of course they are not. But it has been reserved to Dr. WEAVER'S SYRUP and CERATE to achieve what under the circumstances may be regarded as the most brilliant triumph yet achieved by any medicine ever introduced to the American public. Why is this? Simply because they perform what they promise: and notwithstanding the introduction of these new and wonderful preparations, we have not a word to say, for they have a BUREAU REMEDY to fall back upon—viz. Dr. WEAVER'S SYRUP and SALT RHEUM SYRUP and CERATE. Of the fact the public are well aware, for thousands, in all sections of the country, have been cured by them, after all other remedies have failed.

CONSUMPTION CONQUERED!

Victory! Victory!!
AWARDED TO
ALLEN'S LUNG BALM

CONSUMPTION.—For the cure of this distressing disease, there has been no medicine yet discovered that can show more evidence of real merit than ALLEN'S LUNG BALM. This unequalled preparation for curing Consumption and all diseases leading to it, such as affections of the Pulmonary Organs, is introduced to the suffering public after its merits for the positive cure of such diseases have been fully tested. The formula from which it is prepared is referred to by the leading medical journals as being equal to any prescription that can be made for such diseases by the medical faculty. The BALM is, consequently, recommended by physicians who have become acquainted with its great success.

As an Expectorant, it has no Equal.
ALLEN'S LUNG BALM IS PERFECTLY
HARMLESS TO THE MOST DELICATE.
Sold by Medicine Dealers Generally.

1840. 1871.
TIME TESTS the MERITS of all THINGS.

DAVIS' PAIN KILLER!

This celebrated medicine has been a deservedly high reputation as an alleviator of pain and a preserver of health. It has become a household remedy, from the fact that it gives immediate and permanent relief. It is a purely vegetable preparation, made from the best and purest materials, safe to keep and to use in every family. It is recommended by the leading medical journals, and is a public trial of this years' average life of man—it stands unrivalled and unequalled in the relief it affords over the whole world. Its large and increasing sale affords positive evidence of its enduring fame.

DR. STEWART'S HIGH

ALORUM!

HAS BEEN USED FOR MANY YEARS IN HIS private practice in the State with rapid success, and in offering it to the public we do not claim for it a King Cure-All; yet, for the following Diseases, we do claim that it has no superior: Dyspepsia, Debility, Chills and Fever, and all Bilious Derangements. It improves the Appetite, Purifies the Blood, cures Rheumatism, and as a Female Regulator it has no equal. Its combination is

PURELY VEGETABLE.
And can be used with perfect safety by old and young, with the same desired effect. Possessing all the peculiar merits of acting as a powerful agent, and at the same time a very pleasant beverage.

SIMMONS' LIVER

The symptoms of liver complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general become constipated, and with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility, and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the liver is generally the organ most involved. Cure the Liver with

DR. SIMMONS' Liver Regulator,
A preparation of roots and herbs, warranted to be strictly vegetable, and can do no injury to any one. It has been used by hundreds, and known for the last 40 years as one of the most reliable, efficacious and harmless preparations ever offered to the suffering. It is taken regularly and permanently to cure

REGULATOR.
Dyspepsia, headache, jaundice, constipation, sick headache, chronic diarrhoea, affections of the bladder, camp dysentery, affections of the kidneys, fever, nervousness, child, disease of the skin, impurity of the blood, melanchole, or depression of spirits, heartburn, colic, or pain in the bowels, pain in the head, fever and ague, dropsy, etc., etc., in the back, &c.

Prepared only by

WALTHAM
WATCHES.

The extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, it is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularly mention:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main-pinion, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public.

To those living in portions of the United States where watchmakers do not abound, watches with the above-mentioned improvements, which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:
